Paramotor “LIBRA”

Titanium & Carbon fiber // Stainless steel & Carbon fiber

LIBRA

KRAFT
FLYING PRODUCTS

REMOVABLE EQUIPMENT

- **For a comfortable and compact transport, the paramotors can be assembled and disassembled without using any tools.**
- **This allows the paramotor to easily fit in the back of any vehicle and move the equipment to where you want to fly, to assemble it quickly and easily once there.**

LIBRA

ALTIMA PRODUCTS

Paramotor "SCORPIO"

Aluminium frame

- **Its design allows it to be adapted to any of the engines we sell.**
- **Is a fully removable frame, without welded joints, which makes it practical and easy when it comes to replacing its parts and transporting.**
- **Its machined finishes and its variety of colors give it a striking appearance that it pleases the eye.**

TRIKE “KRAFTER”

Is a “tricycle” type base adaptable to any of our frames, converting a paramotor into a “**minitrike**”

PARATRIKE “C1 SPORT”

The C1 Sport paratrike is a **single seater** very comfortable in flight.

It has a very high flight comfort due to a series of factors:

- * Super padded and floating harness
- * Extra low center of gravity
- * Zicral axles for good cushioning
- * Built in stainless steel (like all our trikes)

PARATRIKE “DIAMOND”

The DIAMOND paratrike is the ideal trike for **tandem** flights

We can customize your trike by placing a logo and painting it using the kiln painting process.
